What's new in Writer's Workbench Version 8.72?

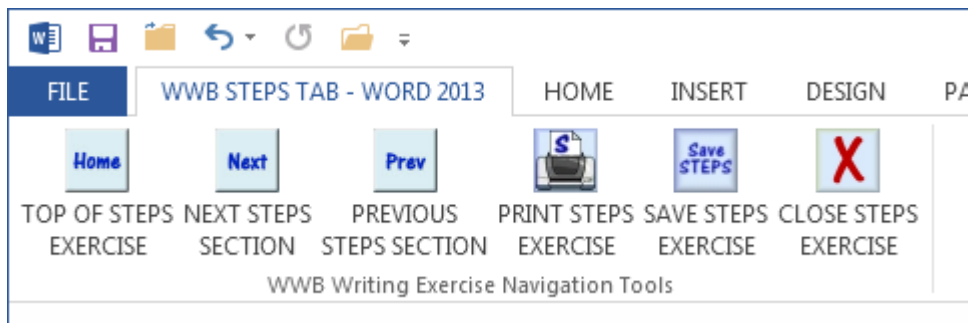

Dear Writer's Workbench Enthusiast:

Just a quick note to alert you to the WWB Version 8.72 improvements included with this release. In addition to our efforts with Microsoft Word, we are now pursuing the possibility of providing a platform-neutral on-line option.

To view a history of WWB enhancements, please visit writersworkbench.com/wwb/wwbEnhancements1.htm.

This year's enhancements -

-  Added compatibility with Windows 8 & Windows 10
-  Added compatibility with Word 2013, Word 2016, and Office 365
-  Added navigation ribbon for STEPS exercises in Word 2013 & Word 2016 -

-  Better support for viewing STEPS in Word 2003 and earlier using wide screen monitors
-  If installed in the default directory, WWB no longer gives a security warning on first invocation
-  **WWB Support and Training** – As always, we provide free, unlimited support, training, and “Webinars” using the GoToAssist remote control program.

If you have any problems or questions or suggestions or if you would like to schedule a professional development webinar, please feel free to call or send e-mail to wwbsupport@emo.com.

Sincerely,

Greg Oij
